

MCTS: Windows Vista and 2007 Microsoft Office System Desktops, Deploying and Maintaining

5 days of Instructor led training - 1 exam

MCTS: Deploying and Maintaining Windows Vista Client and 2007 Microsoft Office System Desktops

A Microsoft Certified Technology Specialist in Deploying and Maintaining Windows Vista Client and 2007 Microsoft Office System Desktops certification (MCTS: Deploying and Maintaining Windows Vista and 2007 Office Desktops) possesses the knowledge and skills to successfully deploy and maintain client desktops using the appropriate Microsoft tools during the various stages of the deployment lifecycle.

Certification Track

MCTS candidates must pass one exam that focuses on the knowledge and skills that are associated with deploying the 2007 Office system, deploying Windows Vista, using the Business Desktop Deployment Workbench, deploying applications by using the Application Compatibility Toolkit, managing user state migration, and managing Windows Vista and the 2007 Office system deployments by using System Management Server (SMS) 2003.

The courses listed below are recommended to prepare you for the associated exam.

Microsoft 5105 - Deploying Microsoft Windows Vista Business Desktops

Microsoft 5058 - Deploying Microsoft Office 2007 Professional

Exam 70 – 624
