

CXA201-2I Implementing Citrix XenApp 5.1 for Windows Server 2008

Vendor Course Code: CXA-201-2I

Course Length: 5 days

Overview:

This course replaces course 1259. While it covers XenApp 5.0 it is suitable for candidates who are using XenApp (Presentation Server) 4.5 on Server 2003 or 2008.

CXA-201-2I Implementing Citrix XenApp 5.0 for Windows Server 2008 provides the foundation necessary to effectively deploy and administer Citrix XenApp and its components, including Web Interface, Application Streaming, Load Manager, Installation Manager, and Secure Gateway.

Learners will receive hands-on training for installing Citrix XenApp and the associated plug-ins and for using the various administrative consoles to configure published resources, policies, individual server and server farm settings, load evaluators, printers, streaming applications and much more.

This package also includes a Pearson Vue voucher for exam A05 - Implementing Citrix XenApp 5.0 for Windows Server 2008.

Skills Gained:

Upon successful completion of this course, learners will be able to:

- Install Citrix XenApp
- Install and distribute the XenApp plugin software
- Create and customise Web Interface sites
- Publish applications, server desktops and content
- Configure XenApp Web and XenApp Services sites to stream applications
- Create and assign load evaluators
- Configure, apply and prioritise policies in a XenApp environment
- Configure printers and printer policies and manage print drivers and printer bandwidth
- Create and configure Citrix administrators and their permissions
- Configure display and SpeedScreen settings
- Configure ICA encryption, SSL Relay and Secure Gateway
- Install and configure Installation Manager
- Identify the key features of Citrix XenApp Platinum Edition additional components

Key Topics:

- Introducing XenApp 5.0
- Installing XenApp
- Installing and Configuring Citrix XenApp Plugins
- Installing and Configuring Web Interface
- Delivering Applications and Content
- Streaming Applications
- Configuring Load Management
- Configuring Policies in XenApp
- Configuring Printing
- Administrative Configuration
- Display and SpeedScreen Configuration
- XenApp Security
- Installing Applications, Service Packs and Hotfixes
- Platinum Edition Additional Components

Target Audience:

This course is intended for IT professionals, such as server, network and systems and administrators familiar with Microsoft Windows environments. Systems engineers, analysts, consultants, and architects are also appropriate candidates for this course.

While it covers XenApp 5.0 it is suitable for candidates who are using XenApp (Presentation Server)

4.5.

Prerequisites:

It is recommended that learners have experience administering Microsoft Windows Server 2003 or Windows Server 2008 environments.
