

Cisco Certified Network Associate

The CCNA certification validates the ability to install, operate and troubleshoot medium-sized routed and switched networks, including implementation and verification of connections to remote sites in a WAN. This curriculum includes basic mitigation of security threats, introduction to wireless networking concepts and terminology, and performance-based skills. It also includes (but is not limited to) the use of these protocols: IP, Enhanced Interior Gateway Routing Protocol (EIGRP), Serial Line Interface Protocol, Frame Relay, Routing Information Protocol Version 2 (RIPv2), VLAN, Ethernet, Access Control Lists (ACLs).

10 days of Instructor Led Training – 1 or 2 exams

Prerequisite certification – Nil
